Subject: the safe on Epstein's private island...

[REDACTED],

Just wanted to make sure your team saw this reference in today's story to a super-secret safe in Epstein's island getaway:

<https://www.bloomberg.com/news/articles/2019-07-12/jeffrey-epstein-s-private-island-in-the-caribbean-has-gone-quiet?srnd=premium>

"The level of secrecy around a steel safe in Epstein's office, in particular, suggested it contained much more than just money, he said. Outside of an occasional visit by a housekeeper, no one was allowed in those rooms."
