Subject:	FYI: Danny & Chris

Hey Bossman,

Danny installed the new oil sensor on the generator over at GSJ. He said the=battery needs to be jumped with jumper cable because the battery is chargin= low

I told Danny and Chris (they were together and I was on speaker) that Tap sa=d not to jump the generator because it's an electrical generator and it cou=d burn out other things. I told them that tap is sending over a new battery=for the generator but Danny V. is still insisting that he could jump it
